

FY2011 Appropriations Request Form

Office of Congresswoman Jackie Speier
211 Cannon House Office Building
Washington, D.C. 20515
Phone: 202/225-3531
Fax: 202/226-4183
Website: www.speier.house.gov

Individuals/Organizations must respond to all questions on the form. Incomplete proposals will not be considered.

All appropriations project requests will be presented to and evaluated by the 12th Congressional District's Citizens Oversight Panel, made up of community leaders. **This year's panel meetings will be held on February 26, March 5 and March 12, 2010 in the 12th Congressional District.** Appointments to appear before the panel must be made through Cookab Hashemi, Chief of Staff, at 202/225-3531 or via email, Cookab.Hashemi@mail.house.gov.

IMPORTANT NOTE: All information provided on this form and any supporting documents will be made available to the public on the Congresswoman's website.

**DEADLINE: Forms are due by Friday, February 12, 2010
@ 6:00 p.m. (P.S.T.)/9:00 p.m. (E.S.T.). Project requests submitted after that
date will not be considered.**

Date Submitted

January 2010

Project Name

Sharp Park and Linda Mar Pump Station Barscreen Rebuild

Individual/Organization

City of Pacifica's Wastewater Division of Public Works

For examples of applications submitted last year, please review information at <http://www.speier.house.gov> under the section "12th District". Please note that some questions in the application may have changed from last year's form. The agency and/or policy area preferences of last year's panel are not binding for this year.

Amount Requested

\$147,000

Appropriations Bill/Account/Relevant Authorization law/bill/status

Energy and Water Appropriations – Corps of Engineers – Flood Control and Coastal Emergencies

Local Contact

Dave Gromm, Wastewater Division Director

Organization's Main Activities

The City of Pacifica's Wastewater Division is responsible for the collection and treatment of the City's wastewater.

Please show main items in the project and total cost in a simplified chart form.

Linda Mar and Sharp Park P.S. Barscreen Rebuild Project			
Linda Mar P.S.	Cost	Sharp Park P.S.	Cost
Materials	\$55,000	Materials	\$54,000
Labor	\$19,000	Labor	\$19,000

Project Description, including a timeline, goals, expected outcomes and specific uses of Federal Funds.

The project consists of repairing two sewage barscreens at our two main sewage pump stations. Once initiated the rebuild should take about two months to complete and bring the barscreens back into operation. The Federal funds would be used for the purchase of the materials and to pay for the labor needed for the rebuilding.

For examples of applications submitted last year, please review information at <http://www.speier.house.gov> under the section "12th District". Please note that some questions in the application may have changed from last year's form. The agency and/or policy area preferences of last year's panel are not binding for this year.

How will this project request serve to expand the capacity of your organization and how will your organization sustain this work beyond the federal funding?

The rebuild project will require the labor of three to five individuals for the two month timeline. After the rebuild is completed the maintenance of the barscreen will require the ongoing labor of one to two Division employees.

Can this proposal be funded via fees levied on users of the service or via the ordinary capital budgeting process of the organization?

The proposal could be funded via fees levied on the users of the service or via the ordinary capital budgeting process of the organization.

What is the local significance of this project?

The barscreens that need to be rebuilt are located at the two largest sewage pump stations of Pacifica and they require significant maintenance each year because of their condition and age.

How many residents of the 12th CD will benefit from this project?

The project will require about three to five individuals to rebuild the barscreens over the two month period. Sewage from approximately 30,000 residents of Pacifica flow through each barscreen on a daily basis.

Please explain the federal interest in this proposal (i.e. meets a stated objective of federal policy, supports a federal agency, is the result of a federal law/mandate, etc.)

With barscreens in poor condition there is always the possibility of a failure or maintenance issue causing a sanitary sewer overflow or backup which could then affect the waterways of Pacifica and the Pacific Ocean. Both pump stations are located less than 100 feet from the Pacific Ocean.

For examples of applications submitted last year, please review information at <http://www.speier.house.gov> under the section "12th District". Please note that some questions in the application may have changed from last year's form. The agency and/or policy area preferences of last year's panel are not binding for this year.

List any other organizations or state/local elected officials who have expressed support for the project in writing.

There are no writings in support of this project by any other organizations or state/local elected officials.

Does the organization have any other funding requests for this project?

There are no other funding requests for this project.

Has the organization previously received Federal funds for this project?

The organization has not previously received any Federal funds for this project.

Has the individual and/or organization submitted the project request to other Member offices? If so, please identify below the names of the Members of Congress and staff persons.

We have not submitted the project request to any other offices.

Please attach a list of your organization's staff and board members from 2005 – 2010.
